

Kawa Circus

Alessandro Maria Torboli

Technical Conditions

Team: 6 peoples

5 artists: 3 performers, one danseuse and one musician
1 manager

Timing:

Setting up and dismantling items and instruments take at least two hours and half.

The whole program takes about 50 minutes, no interval.

Installation:

Team:

A stage manager and a lighting operator, Lightings are only applicable for indoor performance or during an outdoor show at the evening.

Duration:

It is required to dispose of at least two hours and half prior to the performance to set up the décor .

Stage plan

- Outdoor

Wide: 15 m

Deep: 10m

Height : 7- 7,5m open sky

A mud floor will be the most suitable surface as two piles will be driven into the floor in order to tighten a rope set by four bamboo poles.

For lack of mud floor to drive the piles, two rings fixed into two stands of cement can be also suitable to fix the lateral rope.

A small carpet will be provided to the musician performing, sat on the floor.

Kawa Circus

Alessandro Maria Torboli

- Indoor

Wide: 15 m

Deep: 10m

Height : 7- 7,5m . The lighting ramp and projectors must be fixed at least three meters above the rope to allow the artists walking on it.

The stage area must be wood made, seamless and splinterless.

Two rings fixed into the stage or into two stands of cement will be available to tighten the rope and support the artists.

The bamboo poles will be recovered with a synthetic rubber at one of their extremity.

A small carpet will be provided to the musician performing, sat on the floor.

Lighting

must be as natural and discret as possible

Basic Lighting rig with 2 colour wash + open white orchestra wash and Full

Moving light rig to follow the artists on the rope and pick up them in light.

Cyclorama (if available)

Backlight and Sidelight.

Accessories:

Kerdane: a bottle will be required for a nocturnal show, according to the security norms

Some petals of flowers...
